

A solid and committed actor, at the service of its clients

Solution-driven thinking by savings and investment experts from across the BNP Paribas group. Within BNP Paribas, Investment Solutions brings together the best specialists in savings and investments. Its portfolio of solutions spans all client needs, from standard to highly sophisticated services. Custom-tailored, innovative solutions from Investment Solutions are always anchored in sound advice, backed by flawless execution, and supported by hands-on follow-up.

An integrated platform that offers the broadest and most integrated range of solutions in the market. Investment Solutions is the only arm of a banking establishment in the world to integrate the complete range of savings and investment solutions thanks to six highly complementary businesses - Wealth Management, Asset Management, Online Savings & Trading, Securities Services, Real Estate Services and Insurance - each with top-tier positions in their markets.

Proven capacity for innovation and anticipation. Investment Solutions businesses are specialists in savings, making the future part of today's decisions. As pioneers in open architecture and multi-management, these experts continually innovate to anticipate and adapt to the changing expectations and needs of their clients.

A solid and reliable partner. Investment Solutions brings clients the dual commitment of an experienced investment leader and a powerful, solid banking group, deploying the resources needed to ensure security and performance.

A responsible, committed business, where irreproachable ethics is a core value. Investment Solutions' obsession with quality and performance is anchored in loyalty and respect for commitments. In particular this means unyielding application of the strictest standards of irreproachable professional and personal behavior in every country and every business where Investment Solutions operates. Like all BNP Paribas group units, Investment Solutions businesses systematically act as a socially-responsible stakeholder.
